I can't recall whether I sent this leasing map to you but I remember that I promised it.

Hi Cindi,

I hope you're well and that you had a nice weekend (and vacation, if I heard correctly). I wrote Mike below about my availability (finally) to look into the Cook Inlet issue in more detail, but didn't end up catching up with him. Are you available to chat this week, by any chance? If so, please let me know when you'd like to gab: as a general matter, I'm here until 5 p.m. EDT.

Many thanks for your help!

Ahmar

Hi Mike,

I hope you're well. After many fits and starts, it looks like I can, finally, start looking into R10's concerns about Cook Inlet. Are you, by any chance, available to chat on Friday? I am out tomorrow afternoon for family medical appointments and, given the time difference between you and me, I suspect we couldn't make an Eastern-time-zone-morning call work.

If Friday is a possibility for you, when would you like to talk? My guess is that we'll need no more than half an hour. My intention is to follow-up any leads you might have for me with Cindi, who is, as I understand it, out of the office on vacation until next week. Any other suggestions for folks to talk to are also most appreciated.

Many thanks and have a great evening!

Ahmar

Hello Ahmar,

Attached is a copy of the letter Region 10 sent in October of last year and associated attachments. I have been involved with this issue for several years now. Cindi Godsey is the NPDES permit writer for Cook Inlet and Mike Lidgard is the NPDES permits unit manager. We are all able and willing to help as needed.

Thank you for taking on this issue.
Hanh

Good Afternoon Christine and Hanh,

I'm the fellow that Bill Swietlik referred to below who's been asked to look into the issue you raised about Cook Inlet. I've been swamped by other things recently, though some of the pressure is now easing, and wanted to start my information gathering. I see below in Bill's message that you submitted a letter and additional materials to him. Would it be possible to get copies? And, once I've had a chance to read your materials, who would you suggest I talk to? From what I remember Carey Johnston mentioning years ago when he first looked into the issue, it seemed like Cook Inlet was petering out, though current reality may be different.

Many thanks for any help you can give!

Ahmar

Christine:

We have Ahmar Siddiqui in our Division here looking into the issues raised in the letter and materials Region 10 sent us on the Cook Inlet exemption, and into the issues raised by public commenters. We intend to study the issue during the 2014 planning cycle -- so this calendar year. For right now, we will say something to that extent in the Response to Comments document that we will prepare for the comments we got on the Preliminary 2012 ELG Plan, but we were not planning to publicly "announce" this work in the Final 2012 Plan or Prelim. 2014 Plan. Obviously, we will need to work closely with you all, and our permitting folks, on the issue.

Does this help?

Bill, I left you a message about R10's concern regarding the fact that the 2014 plan is silent about the path forward on the oil and gas exemption for Cook Inlet. It would help to understand what the path forward looks like to reevaluate the exemption if it's not included in the plan so that I can report to my RA the "next steps" before the Nancy Stoner briefing. Any insight you can share with me on that front would be helpful.

Thanks.
